PROJECT DESCRIPTION

HWA were delighted to be involved in this project to build a new school in Derbyshire which will provide much needed, purpose built, improved and extended learning facilities and specialist therapy rooms to replace the aging existing adjacent facility

We provided engineering consultancy support services to Henry Brothers Midlands during their successful Design and Build bid and are continuing our collaboration with them with civil and structural engineering services including ground modelling, an updated pumped foul drainage strategy, ground improvement and steelwork design through the project construction.

SERVICES PROVIDED

Adoptable highway design
Adoptable drainage design
Civil engineering design
Drainage strategy
Structural engineering design
